Awaken ~ Clarify ~ Embody ~ Activate

Join us for a deep immersion in the powerful spiritual practice of visioning!

A sacred space is provided for you to awaken divine clarity and insight, deepen your sacred calling, and develop a greater level of mastery in understanding, using and facilitating the visioning process. You will be immersed in:

- The fundamentals of visioning (what it is, how it works, how to use it, letting it use you...).
- Support in developing a regular personal visioning practice and deepening in the transformational nature of visioning.
- Guidance in starting a vision team for your ministry or life's work, and facilitating the visioning process.
- Dealing with resistance and inspiring team and community members to use and trust visioning.
- The experience of the visioning process itself, in the form of several rounds of visioning for your life and your life's work.
